Rule of play:

Setup the window for the game (600 x 800), there are two players required for a game. First, players enter their names, and then the game starts. If the ball goes off the left or right borders (-350,y) or (350, y), then the point is given for a player on the opposite side, and then return in the middle of the window (0,0). If the ball touches the top or bottom border, or the paddle of any player, it bounces back. Player A is controlled by the key "w" and "s", player B is controlled by key "up" and "down".
